

Maria Mitova

Software Engineer with Python

Motivated and detail-oriented graduate of an intensive training programme in software engineering with Python. Skilled in building dynamic web applications with Django, PostgreSQL, and JavaScript. Strong foundation in object-oriented programming, RESTful APIs, algorithms, and clean code principles. Eager to apply hands-on training in a collaborative environment and grow as a professional in the tech industry.

SKILLS

Strong analytical thinking

Attention to detail

Great communication skills

Collaboration & Teamwork

Initiative and Self-Motivation

TECHNICAL SKILLS

Back-end Development

Languages & Frameworks: Python, Django | Databases: PostgreSQL, SQLite | APIs: RESTful API design | Testing: Unit & Integration Testing

Cloud & Services

Microsoft Azure, Cloudinary, Mailjet

Front-end Development

Languages & Markup: HTML, CSS, JavaScript | UI Frameworks: Bootstrap | Concepts: Responsive design, DOM manipulation

Operating Systems

Windows, Linux (Fedora)

Tools & DevOps

Git, GitHub, Docker

Tools

PyCharm, Visual Studio Code, DataGrip

LANGUAGES

English

Full Professional Proficiency

Bulgarian

Native or Bilingual Proficiency

INTERESTS

Reading books

Yoga

Travelling

Hiking

EDUCATION

Software Engineer programme SoftUni

07/2023 - 08/2025

Sofia, Bulgaria

Courses

- ◇ **Django Basics & Django Advanced courses:** Extended Django User model, learned to work with password manager, middleware, and sessions. Built skills in REST APIs, asynchronous operations, unit testing, and deployment.
- ◇ **Python Fundamentals & Advanced courses:** Worked with text processing, regex, associative arrays, advanced functions, data structures, and introductory QA practices.
- ◇ **Python ORM:** Understood Django models, relationships, inheritance, migrations, Admin customization, and querying with Django ORM and SQLAlchemy.
- ◇ **Python OOP:** Mastered classes, inheritance, encapsulation, polymorphism, decorators, iterators, generators, SOLID principles, unit testing, and design patterns.
- ◇ **PostgreSQL:** Performed CRUD operations, data aggregation, table relations, transactions, and used database programmability features like stored procedures.
- ◇ **HTML & CSS:** Learned HTML structure, CSS box model, typography, flexbox, responsive design, and form handling.
- ◇ **JS Front-End:** Developed skills in JavaScript fundamentals, DOM manipulation, event handling, AJAX, Fetch API, HTTP, and REST communication.
- ◇ **Algorithms with Python:** Studied recursion, searching/sorting, graph theory, minimum spanning trees, shortest paths, and dynamic programming.

Bachelor's degree in Marketing and Strategic Planning in English University of National and World Economy

09/2013 - 07/2017

Sofia, Bulgaria

WORK EXPERIENCE

Senior Project Manager Bulgarian Online Research (BOR)

09/2018 - 12/2025

Sofia, Bulgaria

BOR is a partner of Kantar, a world leader in the online marketing industry, and a pioneer in the field of market research in Bulgaria.

Achievements/Tasks

- ◇ Being responsible for a large number of multi-country market research projects.
- ◇ Coordinating multiple teams on a daily basis to make sure project deadlines are met and all client goals are achieved.
- ◇ Organizing and conducting online meetings with clients and/or people from different departments and UK-based management.
